Additional Contest Rules: All entrants are required to obtain a media release from any identifiable person, other than a staff member of their school, appearing in their video. If such person is a minor, their parent or legal guardian must sign a media release on their behalf.

*Entrants may be able to use the school/district's media permission releases (typically submitted at time of student enrollment) in lieu of the contest's media release form. Your principal should be able to help you determine whether these releases apply.

The Wisconsin Department of Public Instruction will notify the top five finalists about media permission prior to selecting a winning entrant. Only entrants who obtain media releases for all identifiable persons appearing in the video will be considered for selection.

By submitting an entry, each entrant certifies that such entry is his/her original creation (a modification of an existing work does not qualify as original), entrant is the sole copyright owner of the entry, if applicable, and that the entry has not been previously broadcast, submitted, or entered to any competition or won any awards. Videos should not appear to be endorsements for any commercial brand or product.

Indemnification: By entering, participants agree to release, discharge, and hold harmless, the Wisconsin Department of Public Instruction and Hunger Task Force, from all claims or damages arising out of participation in both this offer and/or contest and/or acceptance of any prize or offer. Subject to applicable Federal, state, and local laws and regulations.

Videography Tips

Video Format: Videos files must be in .mp4, .avi, or mov. format. When using video editing programs be sure to finish your project with the menu option typically labeled 'export,' 'share,' 'publish,' or 'save movie.' This creates a new, standalone video that you can share. 'Save' or 'save project' will save your progress in a file that only works on your personal computer.

Suggested video editing programs: FinalCut Pro, Adobe Premiere, iMovie, Windows Movie Maker, or Vegas Video.

Video Quality: Footage may be shot with most cameras, newer cell phones, iPad, etc. Be sure to use the highest video quality setting on the camera.

Sound Quality: Use a microphone, if at all possible, to improve sound quality.

Music: Only royalty-free music, or music to which you own the rights, can be used in the video. The following websites offer music that is not copyrighted.

- [Creative Commons](#)
- [Incompetech](#)
- [Bensound](#)

Note that many of these options require a credit somewhere in the video. Keep such credits relatively unobtrusive. You may want to add credits at the end of your video. See the FAQ or licensing page of the above links for examples of how to credit these sources.

Consent: Entrants must seek permission from any individual appearing in the video. Teams are strongly encouraged to plan ahead for obtaining media permission, so that your inspiration can run free during the creative process. However, if you have not received a media release from someone who appears in your video, you may be able to make adjustments, such as applying a blur effect to a part of the screen where a person appears. In rare cases, Hunger Task Force may be able to assist you with such alterations (email maureen@hungertaskforce.org) for more information.
